Bob Hunt new Alumni Director

The Alumni Board of Directors and the Administration are very happy to announce the securing of Robert E. Hunt, Jr., better known to his colleagues on the campus as "Bob". Bob comes to us with very fine qualifications, with a wealth of enthusiasm, and with a very genuinely fine program to carry on the work of the Alumni Director. He was born in Tacoma and attended Washington Grade School, Mason Junior High, Stadium High, the College of Puget Sound and the University of Washington. He graduated from the College of Puget Sound in August, 1958, his college education having been interrupted by a tour of duty in the Navy. While on the campus, he was a prominent leader in campus activities. He is a member of Phi Delta Theta Fraternity, attends Mason Methodist Church and is active with teen-age groups. His family consists of wife Anne (Mueller) and two baby daughters Wendy and Vicki.

In commenting on the coming of Bob to the Alumni staff, Dr. Thompson said, "We are exceedingly pleased to have Bob Hunt as our new Alumni Director. We feel sure that the program of the Alumni Association is in good hands and will develop and carry forth the objectives and ideals, both of the College and the Alumni Association. It will be a genuine pleasure to work with Bob. I hope every alumnus will get to know him and will share with him the enthusiasm of his program."

R Franklin Thompson

In speaking of Bob's role, Willard Gee, President of the Association, commented: "For a long time we have been very eager for the kind of leadership which Bob can give us. The number of alumni increases every year and we recognize the growing needs and problems which face the College and the Alumni Association. The Association has shown much development in the last few years, but we have not begun to realize our potential.

There are many ways that we can work with Bob in making the College of Puget Sound the outstanding college on the West Coast. As Director, the professional coordination which he can give in leadership is an absolute necessity if the Alumni Association is to succeed. Bob has the drive and the desire to bring that success. We hope now that all alumni will get in and help Bob and work for the good of our beloved Alma Mater."
